

Conservation and Landscape Health

“Nature is our business”

Wildlife Habitat Federation (WHF) is the leading on-the-ground conservation, restoration, and management organization in Texas. We equip our partners with education, tools, and technical assistance for generational sustainability of native prairie habitat for the conservation of soil, water, air and wildlife. Since 2004, WHF has been providing a comprehensive approach to conservation planning, from identification of challenges and opportunities to implementation of best management practices and monitoring of outcomes.

WHF empowers companies beyond fence lines to engage in nature-positive stewardship actions that produce benefits to ecosystems where they work. Our solutions are corporate-driven, community-minded, and biodiversity-based.

**Together, we can enrich nature
and enrich our lives.**

WHF offers several opportunities for engagement:

- Personalized consultation resulting in improved management of all natural resources present.
- Strategies to align business decisions, goals, and needs with nature-positive outcomes.
- Hands-on volunteer opportunities allowing individuals to reconnect with nature.

Wildlife Habitat Federation's portfolio of services aligns with the following Sustainable Development Goals:

Landscape-scale conservation takes determination, passion, and resources.

WHF's current needs include:

- Funding for operational support.
- Corporate participation in conservation programs on-site and adjacent to project areas.

To date, WHF has leveraged public and private funding to provide over **800 consultations**, resulting in the development of management plans for more than **113,000 acres** in Texas.

Our reach – WHF has a **network of 2,000** and growing engaged followers, and an audience that expands with each of our strategic partnerships.

Our partners are committed to collaboration, climate-smart solutions, and conservation action for long-term success.

Our organizational alliances include:

The Nature Conservancy
Monarch Joint Venture
U.S. Fish & Wildlife Service
Natural Resources Conservation Service
Oaks and Prairies Joint Venture
South Texas Quail Coalition
Greater Houston Quail Coalition
Quail Forever
Texas A&M AgriLife Extension
Texas Agricultural Land Trust
Texas Parks & Wildlife
Coastal Prairie Conservancy
Texan by Nature

WHY WHF?

WHF is reconnecting individuals, organizations, and corporations back to nature by re-establishing the native roots that we all have ties to.
