2025 Grazing School

Building Resilience

A unique 3-day workshop to learn from
the top 3 industry leaders in
Regenerative Grazing!

Join us to learn:

- Forage assessment, grazing planning, & stocking calculations
- Improving profitability through appropriate grass management
- Fundamentals of herd selection, genetics & epigenetics
- Assessing animal performance
- Business practices to improve economic viability & profit
- Planning for long-term success & more!

Mornings begin with Open Gates at 3 different local ranches offering real-life demos & insights straight from the source!

Afternoon presentations held at Texas State University, for deeper dives into practical, research-backed strategies for your operation.

**Real ranches.
Real strategies.
Real value.**

Details:

- August 1-3, 2025
- San Marcos, TX
- Lunches included
